Releases Tags

v1.1.0-demoscribe Target: release/1.1.0

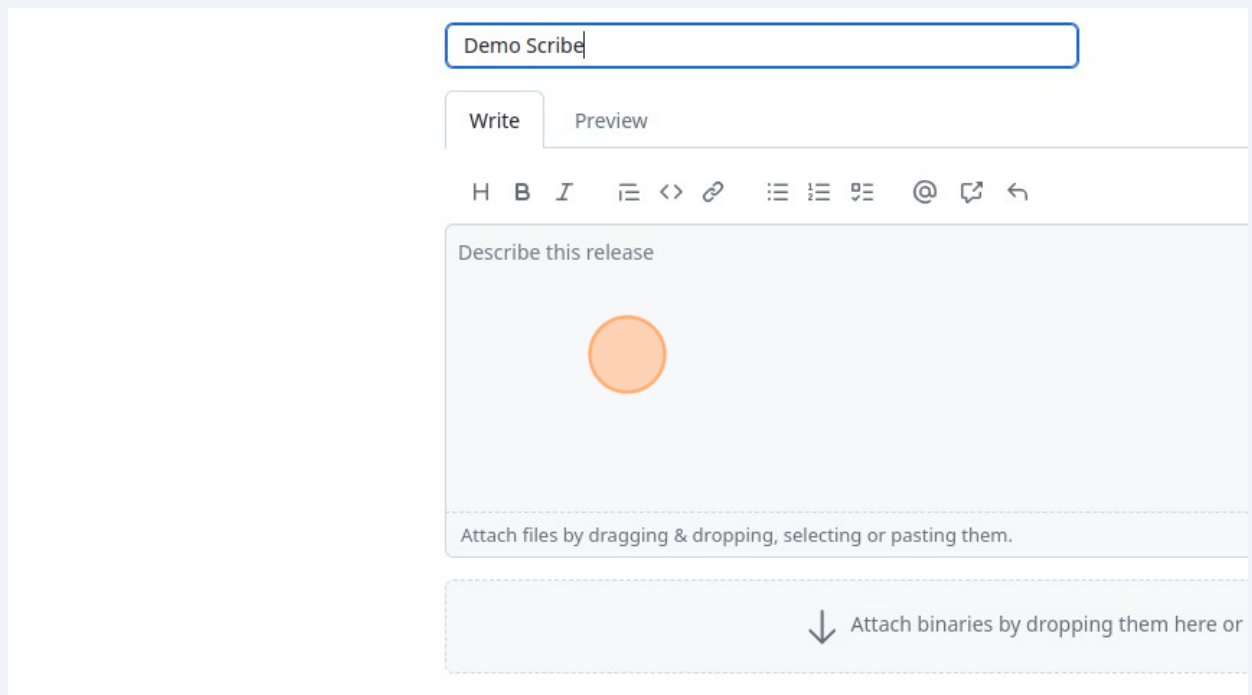

Excellent! This tag will be created from the target when you publish this release.

Release title

Write Preview

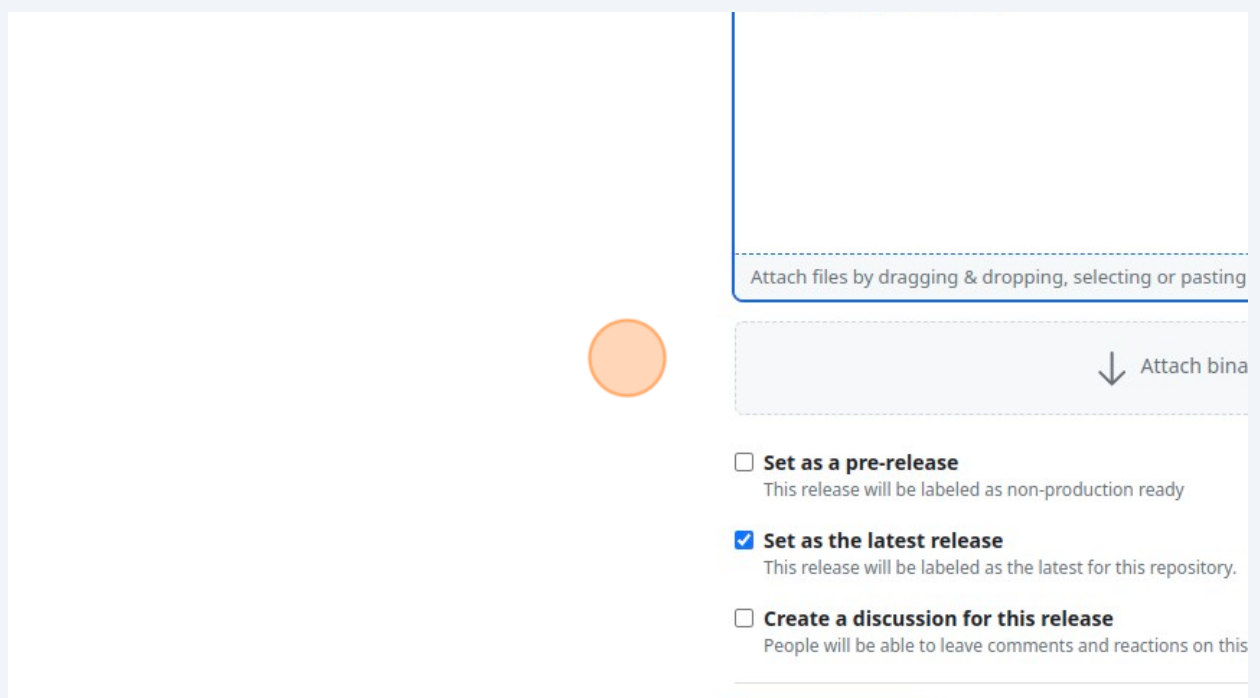

Describe this release

10 Fill the description

The screenshot shows the GitHub release creation interface. At the top, a text input field contains "Demo Scribe". Below it are two tabs: "Write" (active) and "Preview". Under the "Write" tab is a rich text editor with icons for bold, italic, link, code, list, and more. The main text area is titled "Describe this release" and contains a large orange circle. Below the text area is a dashed box with the text "Attach files by dragging & dropping, selecting or pasting them." At the bottom is another dashed box with a downward arrow icon and the text "Attach binaries by dropping them here or".

11 Set as "latest" for new releases or "set as pre-release" for release candidates

The screenshot shows the bottom part of the GitHub release creation interface. On the left, there is a large orange circle. On the right, there is a dashed box with the text "Attach files by dragging & dropping, selecting or pasting". Below this is another dashed box with a downward arrow icon and the text "Attach bina". At the bottom, there are three checkboxes with labels and descriptions:

- ☐ **Set as a pre-release**
This release will be labeled as non-production ready
- ☒ **Set as the latest release**
This release will be labeled as the latest for this repository.
- ☐ **Create a discussion for this release**
People will be able to leave comments and reactions on this

Attach files by dragging & dropping, selecting or pasting them.

↓ Attach binaries by drop

☐ **Set as a pre-release**

This release will be labeled as non-production ready

☒ **Set as the latest release**

This release will be labeled as the latest for this repository.

☐ **Create a discussion for this release**

People will be able to leave comments and reactions on this release using
